Important to All Selling the Shoe Trade

TO spread broadcast the knowledge of the merits of your merchandise, and create the buying desire, there is no journal in the great shoe and leather field which can be more useful to you than

The Boot and Shoe Recorder

The *Boot and Shoe Recorder* is the only retail shoe trade publication holding membership in the *Audit Bureau of Circulations*. A publication that can show a clean bill of circulation health

stamped with the approval of the *Audit Bureau of Circulations* is a safe paper to do business with. The *Recorder's* subscription strength has been built up from the best retail establishments in the world, and rated in buying units is very powerful. Your announcement going regularly to more than 8000 readers will prove a great stimulus to sales.

An ounce of advertising beats a pound of dead-stock. Ask any man using "Printer's Ink" properly if that is not so. Ask also if sales are not made easier with

than without advertising; if one's hold on the trade is not strengthened; if distribution is not acquired more rapidly, more economically, and if factory overhead and sales costs are not kept down thereby to lowest levels. That man's answer will make it clear that the greatest success and business security lies in creating and cultivating a market by consistent trade advertising.

The "*Recorder*" Makes Fifty-two Trips Yearly—
Subscribers, (and they are Buyers) Welcome its Coming

SEVENTY-SECOND YEAR

SCIENTIFIC AMERICAN

THE WEEKLY JOURNAL OF PRACTICAL INFORMATION

FOR the non-technical man who would read, in simple language of practical science and invention; for the technical man who would hear the last word on scientific achievement; for the business man who would learn what science can do for him; for all those who seek to keep in broad touch with the world's material progress; and, finally, for the larger public which is attracted by the fascinating interest which underlies all scientific and mechanical achievement. Its purpose is to record accurately, simply and interestingly the world's progress in scientific knowledge. Its editors are trained men—trained in their respective lines. They are in touch with all the men working in different fields of work, who are best fitted to express in simple but in exact words the progress of each department of human endeavor. The SCIENTIFIC AMERICAN is the authority; it is always up to the date; and gives its readers the first news as well as the most complete news of any new development.

* * * We find the Boston Business Directory a most valuable book to us in a number of ways. * * *

The Business Directory which you publish enables us to keep an exact checkup. For example, if we find a salesman has called on a certain number of stores in a certain section, we can check up his retail orders against the Directory and if we find he has missed calling on a number of stores we can send him right back to these stores and have him present his sales argument. We would state on intensive retail constructive work, such as we have to do to perfect our distribution, we know of no other medium that has given us the information we wish, to check up this matter satisfactorily and see that these sales instructions are followed up to the letter.

Checking up our retail sales with the list of stores in your Directory, which shows the exact location of each store, gives us the information we require to offset the argument of any salesman who states he is covering his territory thoroughly.

We take great pleasure in recommending the book and it is certainly well worth the money expended in purchasing it.

Yours truly,

What You Can Get Out of This Book

"What you don't know won't help you." If you do business in New England, there is information in this book of great value to you, **if you use it**. It is for you to know what this book contains, and apply that knowledge in your own business.

In buying

Do you wait for the salesman to come to you, or do you go after him? You may buy well through luck or friendship, but to be sure of buying to the best advantage you must know something about **all who sell**. Here they are, over 300,000 of them, conveniently classified right in this book. More detailed information is placed for your guidance by progressive houses in the reference advertising section.

In selling

"Intensive" selling is based on accurate knowledge of the **possible purchasers** in each section. This book will help you locate customers. Whether you cover this territory by mail or by salesmen, the data you need is here, waiting to be used.

Set "Quotas" for your salesmen to equal, based on past results and future possibilities as revealed by a careful study of the business in each man's territory as shown by this book.

Make your Direct Advertising effective by cutting the dead wood out of your mailing list, and putting in the new live names this book will give you. (By the way, our List and Letter Department might help you in compiling lists or getting out letters).

In general

Look over the Topical Index or Explanation of Arrangement on page 3, and the Synopsis of Principal Headings, giving number of names in each State, on page 7. The book is yours, make the most of it.

About ourselves

In Directory business seventy-one years. Publishers of this book since 1856, and have tried to improve it with each edition. We believe there is still chance to improve, however, and ask your co-operation. Any errors noted or suggestions as to how we can increase the service of this book, will be appreciated by

CROSS REFERENCES

In order to condense the immense amount of information into the most compact and convenient form for use, it has been necessary to make most careful selection of headings used, and as a rule each name appears under the one heading which best describes it. Patrons who appreciate the value to themselves and their customers of appearing under different headings, are inserted in bold-faced type by special contract.

If a name or place is not readily found, a glance at the *Gazetteer* may show more than one post office in the town in question. Frequently a post office has an entirely different name from the town it is in; for instance, Bellows Falls is in the town of Rockingham, Vt.

As it is often difficult to think off-hand of the exact heading where a certain name may be listed, we have tried to put cross-references where they may be looked for, to aid users of this book.

If the classification sought does not appear, think of the most general heading which would describe the business wanted. Numerous cross references throughout the book, the following Table, and a little thought will assist greatly in finding what you want.

The publishers will be glad to answer any questions in their power, and will appreciate any suggestions as to how the book may be made more useful.

SYNOPSIS OF LARGER HEADINGS

In the following table is given the number of names under some of the larger headings, in each department. It will be understood that there are many hundreds of other headings in addition to these. These are simply given to save counting the number of names in the longer lists, for convenience in estimating cost of circularizing. In this connection would say that the publishers have a splendidly equipped department for service in any branch of direct advertising, as addressing, mailing, preparing letters, etc. If interested address List & Letter Service Dept. Sampson & Murdock Co., Boston, for prices, samples, etc.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased, and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realised until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying, and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page—", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.

A Complete Gazetteer

Giving all Cities, Towns, County Seats, Villages and Post-Offices with their location, railroad and electric connections, and population by the latest census—See page 43

In making this Directory

Our object is to list every concern under the one heading that best describes their business. Additional and capitalized listings referring to an explanatory space, are paid for by progressive houses, who think enough of your business to make it easy for you to find them. When buying, it will pay you to **Look at the Pink Section**

A Public Service Publication

Few lines of Business have such a varied clientel as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions *What?* and *Who?* which arise in daily Business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and who's life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

WHAT OUR DIRECTORIES CONTAIN

National Advertisers

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the city directory. Put—"See the city directory for our local agent" on all your advertising and see to it that he is listed under all the classifications of your line.

Local Advertisers

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

How to Use This Book—See Explanatory notes on page 3

A Complete Gazetteer

Giving all Cities, Towns, County Seats, Villages and Point-Offices with their location, railroad and electric connections, and population by the latest census—See page 43

In making this Directory

Our object is to list every concern under the one heading that best describes their business. Additional and capitalized listings referring to an explanatory space, are paid for by progressive houses, who think enough of your business to make it easy for you to find them. When buying, it will pay you to Look at the Pink Section

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased, and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realised until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying, and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in **heavy type** it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page—", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to **you** as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you **now** how little it costs to be **protected**.
